ABOUT US トウシャ

Founded in 1992, Houston-based ADV Films has firmly established itself as North America's premier producer-distributor of Japanese Animation (anime). The firm's continuing success can be attributed to releasing the highest quality productions, coupled with the scope and diversity of the company's catalog. ADV's success in converting a "niche" product into a retail gold mine has been subsequently sought after by other quality-focused production companies for home video distribution of their franchises, including premier sci-fi series titles as ***Mutant X, Gene Roddenberry's Andromeda*** and The Jim Henson Company's Saturn Award-winning ***Farscape.***

Now entering the company's thirteenth year of excellence, ADV's Houston headquarters are home to administrative operations, state-of-the-art studios, and warehousing facilities. Spanning the world, ADV operates satellite offices in London and Tokyo and expanding to Germany, encompassing over 150 team members, and is evolving rapidly to meet the explosive growth and feverish demand for its high-profile products.

THE ADV FAMILY

The growing demand for anime and home entertainment products has resulted in the creation of ***ADV Toys,*** which specializes in providing fans with an extensive array of specialty merchandise created from their favorite films and series, including officially-licensed commodities such as t-shirts, toys, models, and much more. In addition, ***ADV Manga*** will be releasing over 1,000 new manga titles to supplement its already expansive library of hit titles. ***ADV Music*** will continue to supply fans with dynamic soundtracks from hit anime and video game titles, and ***ADV Theatrical*** will focus on bringing brand new international cinematic features to American audiences.

The business of A.D. Vision, Inc. (parent company of ADV Films) doesn't end with DVDs, CDs and ancillary merchandise. The firm is also the publisher of ***Newtype USA,*** the official English-language version of ***Newtype,*** Japan's #1 anime and manga magazine, and the world's leading source of information about the anime and manga industries. ***Newtype USA*** is published through an agreement with Kadokawa Shoten, the publisher of ***Newtype*** (Japan). ***Newtype USA*** combines extensive content from the Japanese edition with original English content aimed at the North American audience.

Since the November 2002 debut of ***Newtype USA,*** the magazine has been the premier anime and manga monthly in the English-speaking world with a reader circulation of over 100,000. Reader value is emphasized throughout, and each issue includes numerous free extras, including centerfolds, postcards, a manga (comic) special, a DVD insert and more. To best showcase the original artwork of Japan's top anime artists, ***Newtype USA*** is oversized and beautifully reproduced on high-quality gloss stock. And finally, in a truly distinctive touch, ***Newtype USA*** reads from right to left just like the Japanese original.

In addition, ADV Films launched the brand new ***Anime Network™***, the first cable channel in North America dedicated to anime, with access to thousands of hours of exciting, eye-catching serialized programming. ***Anime Network™*** launched in North America in late 2002 with extensive availability initially through digital cable video-on-demand technology and has quickly become one of the top performing video-on-demand networks in the U.S. The network also became available on a 24/7 basis in select U.S. markets beginning July 2004 and is now seen in more than 15 million households across North America.

LETTER ゴアイサツ

TO OUR LOYAL FANS, RETAILERS,
AND STRATEGIC PARTNERS AROUND THE GLOBE

Last year (2004) was quite a year for ADV Films and our associated companies. Anime Network™, North America's first network dedicated to anime, became the first video on demand service in the history of television broadcasting to graduate up to a fully linear network and now reaches into over 15 million homes. ***Newtype USA,*** the official English-language version of Japan's #1 anime and manga magazine, continues to lead the way as the premier source of anime content in North America with a monthly average of 100,000 readers, and ADV Films' original production of ***Lady Death: The Motion Picture*** was a stunning success. We revisited some of our greatest past hits with the spectacular ***Neon Genesis Evangelion: Platinum Edition*** and ***Robotech-Remastered*** and launched a multitude of new hit series like ***Chrono Crusade, Peacemaker*** and ***Get Backers.***

But enough about the past, let's talk about the future - 2005 promises to be a year of great change in the entertainment world as new technologies and mediums of distribution completely change the way that media can be delivered to you in your home. The era of High Definition video is finally here and that which was the state of the art only a few years ago is already slated for replacement with exciting new formats. Dependence upon a single cable provider is a thing of the past, and soon the average household will have the option of choosing any or all of a half-dozen different providers of content at the same time, allowing almost instant access to any audio or video service. And all of this is not in the far off future but in the here and now.

So what does that mean for ADV? Business as usual! As the anime industry leader and one of the top companies in the entire home video marketplace, looking into the future and being ready for it is our specialty. This is why Anime Network™ began as a V.O.D. service; we looked forward and saw that the conventional broadcast technologies were already being replaced with digital advancements that gave you, the anime buyer, a greater range of choice and selection on a schedule that matched your own. It's why we began producing HD masters for broadcast two years ago and have already begun working on ways to deliver that higher quality to you via disc and direct access. And it's why we have joined with Japanese and other companies around the world to create new and unique programming that takes full advantage of not just the next advancement in technology but the one after that as well.

The first decade of the twenty first century is now nearly half over. Since our founding in 1992, ADV has seen the entertainment world change a dozen times. But regardless of the advancement of technology, one thing remains the same, people want to be entertained and that means the key to our success lies in continuing to bring you the very best programming in the manner that's most convenient for you. Take a look inside this catalog to get a glimpse of what 2005 has to offer, and I'm sure you'll be just as excited as I am! These brand new titles are sure to knock your socks off, and with crowd pleasers like ***Gantz, Cromartie High School*** and ***Full Metal Panic? FUMOFFU,*** plus classic titles like ***Gatchaman,*** released for the first time ever in its entirety outside of Japan, this is going to our biggest year ever!

For the future, the sky's the limit, and I eagerly invite you to join us for a new and exciting year with ADV!

Faithfully Yours,

John Ledford

BIRTH

The planet Aqualoid was once home to a prosperous advanced civilization. However, the Rido Galaxy to which Aqualoid belongs was conquered by a mysterious lifeless intelligence, the Inorganics. Then one day, teenaged Nam finds a mysterious, shinning sword, and suddenly he and his friends, Rasa and Monga, are the objects of a planet-wide chase by the Inorganics. CROMARTIE HIGH SCHOOL

The only thing for certain is that for Kamiyama, Cromartie High School is his reality. And what a surreal reality it is. Because this is where the toughest, meanest (and, often dumbest) students are sent to do time. At Cromartie, purple mohawked bruisers and pencil-chomping street thugs are just part of every day life. And so is a 400-pound gorilla. And a macho brute named Freddie who travels with his own theme music. And, of course, Mechazawa, the student voted most likely to need an oil change. So pack your bags, put on your best tough-guy swagger, and get a lesson in insanity from the hilarious losers at Cromartie High. This is one class you won't ever want to cut.

EDEN'S BOWY

On the surface of an underdeveloped world, the poor masses struggling to survive look to the sky and stare longingly at the two glorious cities, collectively dubbed Eden, that float above them. On the surface, a young boy and his father struggle to make ends meet, while unbeknownst to them, forces from Eden conspire to eliminate them. The boy and his father are the last in a long line of god hunters, gifted with the ability to destroy the deity who now rules Eden–and that deity wants them out of his way. Now, the boy must elude his pursuers and return to his birthplace in Eden to reunite with his mother. But it's not going to be easy.

GANTZ

SAINT SEIYA

The cosmos is bound together by an incomprehensible web of strength, power and some would even say, magic. And only to a select few may these forces be harnessed or ultimately controlled. Seiya is a mortal from Japan. He has been trained, he has excelled and the time has now come to test his skills in battle to claim the sacred armor–the sacred armor that will change the order of the universe, the sacred armor that will earn his place in the cosmos, and the sacred armor that will establish his rank among the Saints. Through a series of tournaments and trials, Seiya must not only defeat some of the most powerful fighters ever to step foot in the ring, but he must also defeat the demons within himself as well.

Enter Kenshin, a young orphan whose fighting skills were honed by the great swordsman Hiko. But Kenshin's soul is embattled much like the killing fields of Japan, with his hopes for a new world peace at odds with his life of blood and killing. THE SAMURAI

Takeshi Chimatsuri is many things, but the one thing the young samurai is not is a ladies man. In fact, he tends to go into a catatonic state whenever confronted with naked, female flesh. But his difficulties with the fairer sex have never been a problem, at least not until the Tokai Twins, Akari and Kagiri, blew back into town. Takeshi's erstwhile childhood playmates have grown up, filled out and become femme fatales schooled in the arts of the ninja. That's bad news for Takeshi, because they've come back for their family's ceremonial sword, now in his possession—and they'll stop at nothing to get it back, including subterfuge, sneak attacks and a little well-timed nudity!

GENE RODDENBERRY'S EARTH: FINAL CONFLICT

Since the dawn of time, humans have looked to the skies with a question burning in our hearts. Are we alone in the universe? GENE RODDENBERRY'S ANDROMEDA

Gene Roddenberry's Andromeda chronicles the adventures of Captain Dylan Hunt (Sorbo) and his crew on the starship Andromeda Ascendant as they search the galaxies in an effort to rebuild the Systems Commonwealth, a community of worlds strewn across the universe working together for peace. But Captain Hunt and his crew won't find their undertaking to be an easy task, as they must continuously battle with those with other plans, including, for example, such foes as the vicious Nietzscheans, a race of genetically engineered humans who follow the teachings of Friedrich Nietzsche, the famous 19th Century philosopher. Will the Nietzscheans' reign of galactic terror prevail? Or will the Andromeda crew prove whatever doesn't kill you, only makes you stronger? From an original concept by ***Star Trek*** creator, Gene Roddenberry, ***Gene Roddenberry's Andromeda*** features heroic stories, thundering action, wry humor, and breathtaking special effects. When inventor Kyusaku Natsume transfers the brain of his son Ryunosuke's cat into a top secret android body, he doesn't lose a family pet… he gains a daughter! Nuku Nuku may appear to be a teenage girl, but her cute and cuddly exterior hides both the superhuman strength of the world's most advanced android chassis and the lightning quick senses and reflexes of a domestic feline. She'll need these abilities to defend Ryunosuke from the forces of Mishima Heavy Industries, a giant conglomerate run by the world's most ruthless businesswoman, Akiko Mishima, who, not-so-coincidentally, just happens to be Natsume's ex-wife and Ryunosuke's mother! This feisty feline might be determined, but her catlike cunning and mechanical muscle may not be enough to stop a custody battle that will soon become an all-out war!
